VIEWS OF OTHER OFFICES CONSULTED: Concur

**BUDGET IMPACT, IF ANY: None** 

**RESPONSIBLE STAFF MEMBERS:** Regional Director Edward P. Dupcak, Acting Director of Insurance Wendy A. Angus, and Insurance Analyst Kerry Murphy.

**SUMMARY:** ABNB FCU, assets \$281 million, was chartered in 1960, and serves multiple groups in the vicinity of Virginia Beach, Virginia.

ABNB FCU proposes to convert to a community charter to serve persons who live, work, worship, volunteer, or go to school in, and businesses and other legal entities in Isle of Wight and Southampton Counties, including the Cities of Franklin, Chesapeake, Norfolk, Portsmouth, Suffolk, and Virginia Beach in Virginia. The area consists of multiple political jurisdictions in the southeastern portion of Virginia with well-defined geographic boundaries. The proposed area is recognized by the Virginia government as the Southeastern Virginia Community (SVC). The population was 1,078,642 as of 2000.

A majority of the workforce, 90 percent, is employed within the community. It has a major trade area, anchored by the community's three largest cities, Chesapeake, Virginia Beach, and Norfolk which are connected by three major interstates, I-264, I-664, and I-64. The tri-city trade area draws residents from throughout the community for business, shopping, employment, and entertainment. The entire SVC interacts through the community's main newspaper and airport, shared facilities, organizations, clubs, events, and recreation.

Our analysis shows the applicant has met all the requirements to convert to a community charter, including the documentation requirements to establish the community common bond based on a well-defined, local community with fixed geographic boundaries where residents have common interests or interact.

ABNB FCU prepared a sound business plan, including a detailed marketing plan and realistic financial projections, and has the facilities, staff, and other infrastructure needed to offer its services to the entire community.

**RECOMMENDED ACTION:** Approve the application for conversion to community charter for ABNB Federal Credit Union.

Regional Director Edward P. Dupcak

#### 1. GENERAL BACKGROUND

ABNB Federal Credit Union (FCU) was originally chartered as the Amphibious Base FCU in 1960 to serve civilian and military personnel of the U.S. Government who work at or are assigned to the U.S. Naval Amphibious Base in Norfolk, Virginia. The credit union changed its name in March 2003. Over the years, ABNB FCU expanded its FOM to include over 100 Select Employee Groups (SEGs), including groups acquired in mergers as well as two underserved areas. The underserved areas are located within the boundaries of the proposed community.

As of June 30, 2003, ABNB FCU had 39,033 members and estimated its potential at 143,856 members, for a penetration ratio of 27.2 percent.

The four primary reasons ABNB FCU seeks to covert to a community charter are:

- 1. To broaden its membership base and expand financial service, to maintain and build on its solid financial position, and to ensure its long-term viability.
- 2. To bring its many services to the underserved people in the proposed community.
- 3. To provide for future viability should one or more of the credit union's military sponsors shrink or close.
- 4. To serve the needs of the proposed community.

#### **Proposal**

The proposed community consists of persons who live, work, worship, volunteer, or go to school in, and businesses and other legal entities in Isle of Wight and Southampton counties, including the cities of Franklin, Chesapeake, Norfolk, Portsmouth, Suffolk, and Virginia Beach in Virginia.

#### **Delegated Authority**

The population of the proposed community is 1,078,642 per the 2000 U.S. Census Bureau data. Because the proposed community consists of multiple political jurisdictions and has a current population of more than 500,000, GC and E&I concurrence and NCUAB approval is required under Delegated Authority CHA 3B.

#### **SEGs**

The proposal indicates that all ABNB FCU SEGs are located within the proposed community.

# 2. WELL DEFINED AREA THAT IS A LOCAL COMMUNITY, NEIGHBORHOOD, OR RURAL DISTRICT

### A. Geographic Boundaries

The proposed community consists of the following recognized political jurisdictions including their populations:

County	Population
Isle of Wight	29,728
Southampton	17,482
City	
Franklin	8,346
Chesapeake	199,184
Norfolk	234,403
Portsmouth	100,565
Suffolk	63,677
Virginia	425,257
Beach	,,

The proposed area covers approximately 2,000 square miles and has the following boundaries:

North James River and Chesapeake Bay

South North Carolina State Line

East Atlantic Ocean

West Prince George County Line

ABNB FCU provided a map of the proposed community. The map sufficiently identifies the boundaries and the geographical characteristics.

# B. Evidence of Resident Interaction and/or Common Interests in the Local Community

The proposed community is contained within a commonly defined region as designated by the Southeastern Public Service Authority (SPSA) as the Southeastern Virginia Community (SVC). The SPSA was formed in 1973 to serve the municipalities of the proposed community. It is responsible for the region's water supply, including a regional solid waste disposal system, a resource recovery operation, and a power plant.

The proposed community is located in the southeastern portion of Virginia and is comprised of two contiguous counties and six cities that are recognized political jurisdictions. Virginia Beach, Chesapeake, and Norfolk are the largest cities in the community. They are centrally located, close to one another, and linked by three interconnecting major Interstates, I-264, I-664, and I-64 that foster community interaction. Thus, the majority of the shopping and cultural events are located in this area. Residents in the proposed community travel to this tri-city area to shop, work, obtain higher education, and attend cultural and sporting events. In addition, interaction is apparent throughout the entire SVC through various organizations/clubs, high school activities, employment, as well as a sole newspaper and airport.

#### **Employment**

Residents in the proposed community have significant opportunity for interaction through their place of employment. According to 2000 U.S. Census data, 90 percent of the community's 543,045 labor force work in the community. Of those who are employed in the proposed community, 83 percent work in the three major cities of Norfolk, Chesapeake, and Virginia Beach. The major employers of the area include the U.S. Federal Government (U.S. Navy), Northrup-Grumman (shipbuilding), and the healthcare industry.

Although a large portion of the population works in the tri-city area, there is also evidence that the proposed area's labor force work throughout the SVC, thus fostering interaction, as depicted in the chart below:

#### **Major Trade Area**

The proposed community's major trade area lies in the tri-city area of Norfolk, Virginia Beach, and Chesapeake. There are four large shopping malls in this area that are within 12 miles of each other and offer a wide range of shopping opportunities. The malls are as follows:

- MacArthur Center, Norfolk;
- Chesapeake Square, Chesapeake;
- Greenbrier Mall, Chesapeake; and
- Lynnhaven Mall, Virginia Beach.

These malls draw shoppers from throughout the community by offering residents a wide array of popular national chain department stores. Each mall attracts shoppers due to their unique anchor stores. For example, MacArthur Center is home to Nordstrom and Dillard's, Chesapeake Square has Target and Hecht's, and Lynnhaven Mall has Lord and Taylor as well as a 20 screen AMC Theatre.

#### **Traffic Flows**

Interstates 64 and 664 run north and south and Interstate 264 runs east and west. These are the primary transportation routes for the residents of the proposed community. A network of smaller roads provides additional transportation routes throughout the community. Many of these roads criss-cross throughout the community as shown below:

- Interstate 64 runs north-south through the cities of Norfolk, Virginia Beach and Chesapeake, while Interstate 664 branches off north-south through the City of Portsmouth.
- Interstate 264 runs east-west through the cities of Norfolk, Virginia Beach, Chesapeake, and Portsmouth.
- Interstate 58 runs east-west through Southampton County, Franklin City, Suffolk City, and Chesapeake City.
- Interstate 460 runs east-west through the northern part of Southampton County, Isle of Wight County, and Suffolk City.

The above demonstrates there are numerous highways and interstates that connect the residents of the proposed community.

#### **Higher Education**

The community's higher education needs are served by Norfolk State University, Old Dominion University (ODU) and the Tidewater Community College (TCC). The narrative states that residents of the proposed community represent 48 percent of the students at ODU and 42 percent of the students at TCC.

4

ODU's main campus is located in Norfolk. TCC serves the proposed community with campuses in the cities of Chesapeake, Norfolk, Portsmouth, Virginia Beach, a regional Visual Arts Center in Olde Towne Portsmouth, and the TCC Jeanne and George Roper Performing Arts Center in the theater district in downtown Norfolk. TCC offers numerous programs and degrees including certificates, with accreditation for transfer.

#### **Community Events**

Residents of the proposed community participate in numerous fairs, festivals, sporting events, and other activities within the community, promoting interaction among the residents. One major event is the annual Air Show held at the Oceana Naval Air Station located in Virginia Beach, Virginia. Residents in the proposed community represent approximately 66 percent of the attendees for this event that attracts between 150,000 to 175,000 people throughout the weekend event.

The proposal also contains a listing of other community events including the American Music Festival, Boardwalk Art Show, Virginia Beach Amphitheatre, Contemporary Art Center of Virginia, The Little Theatre of Virginia Beach, Virginia Musical Theatre, and the Virginia Symphony. The majority of these activities are located in the major trade area of the cities of Norfolk, Virginia Beach, and Chesapeake.

#### **High School Activities**

High school students and their families interact throughout the year at various sport competitions, including football, baseball, softball, soccer, lacrosse, gymnastics, etc. The high schools cross municipality lines to compete with similar size high schools in their community. All the public high schools in the community participate in sports events via the Virginia High School League (VHSL).

#### Organizations/Clubs

Numerous organizations in the proposed community enhance the quality of life and provide assistance to the residents of the proposed community, and are supported by individuals throughout the community.

ABNB FCU is actively involved in the community as a sponsor and participant in a number of activities including but not limited to Make A Wish, Hampton Roads Chamber of Commerce, Navy League and American Red Cross Blood drives. In addition, the proposal contains a sampling of the numerous organizations in the proposed community including: Boy Scouts of America, Lions Club, Salvation Army, Virginia Beach Foundation, American Cancer Society, Kiwanis Club, Toys for Tots, and Habitat For Humanity.

#### Newspapers/Media

The Virginia Pilot is the main newspaper serving the SVC. Special inserts during the week are dedicated to different areas that include:

- Norfolk Compass serves Norfolk
- The Suffolk Sun serves Suffolk, Isle of Wright, and Southampton counties
- The Portsmouth Currents serves Portsmouth
- The Chesapeake Clipper serves Chesapeake
- The Virginia Beach Beacon serves Virginia Beach

In addition to the Virginia Pilot, the Hampton Roads magazine addresses the events, opinions, and advertising in the proposed community. Supporting documentation depicts that the proposed community accounts for 74 percent of the magazine subscribers.

#### **Sports**

The proposal indicates there is community interaction through sporting events on the professional level, again in the tri-city trade area, as represented by the following four major sports teams:

- Norfolk Tides Triple A baseball team who play from April to September at the Harbor Park Stadium in Norfolk. The team has a 144 game schedule; 72 home games and 72 away games. The team averages over 500,000 fans per season. The games are broadcasted on local radio stations that cover the entire proposed community.
- Norfolk Nighthawks The area's arena football team who are part of the Arena Football 2 League. The team has an average attendance of 5,500 with a seating capacity of 8,950. The Nighthawks play April through August with eight home games and eight away games. Their home is the Norfolk Scope.
- Norfolk Admirals An American Hockey League team who play at the Norfolk Scope.
- Hampton Roads Mariners Professional Soccer team who play in the DC United League and call the Sportplex in Virginia Beach their home.

#### Airport -

Norfolk International Airport (NIA) is the primary airport serving the residents of the proposed community. The next closest airport is approximately 90 miles away in Richmond, Virginia. Currently, six major airlines serve NIA and five commuter airlines. The proposal outlines that information furnished by the NIA states that Virginia-origin passengers with a zip code in the proposed community represent forty percent of travelers through the airport. In 2001, 2.9 million people traveled through NIA, with 1.2 of those travelers being residents of the proposed community.

#### **Low-Income Analysis**

Since each municipality has its own median household income, we used the weighted average median household income to assess whether the community meets NCUA's low-income criteria. The chart below shows the factors used in determining the area's average median household income based on 2000 census data.

### Estimated Median Household Income for Proposed Community

Municipality	Treidipalantselialia	Wester

in allemellacing	86,210	\$31,815
, Toield	393.000	\$42,982*

<sup>\*</sup>Weighted average for all areas in the proposed community

As indicated in the above chart, the weighted average median household income is \$42,982. The area's weighted average median household income is greater than NCUA's 2000 median household income standard of \$33,595. Thus, the proposed area is not a low-income community.

However, a review of 2000 CDFI data indicates that 301,639, or 28 percent of the proposed community, meets the underserved standards. Approximately 94 percent of the underserved area resides in the cities of Chesapeake, Virginia Beach, Norfolk, and Portsmouth, which is where the majority of the ABNB FCU's branch offices, shared service centers, and ATMs are located.

ABNB FCU currently serves two underserved areas located in the center of the proposed community. The proposal identifies and discusses products and services offered by ABNB FCU that are geared towards low-income residents in the community, such as free share draft accounts, micro loans, and small saver certificates. These services, along with the numerous service facilities in the underserved areas, are adequate to serve the needs of the underserved.

In addition to serving the underserved, ABNB FCU has also been an active mentor for Norfolk Chesapeake Portsmouth Community Development FCU, Maryview Hospital Employees FCU, and Summit FCU.

#### CONCLUSION

The proposal illustrates the Virginia government recognizes this area as the Southeastern Virginia Community. A majority of the workforce is employed within the community and lives within a tri-city area where people come to shop, work, obtain higher education, and attend cultural, sporting, and organizational events. The multiple interstates throughout the proposed community provide residents easy access to the major trade area to promote interaction. The SVC has an international airport, shared facilities, organizations, clubs, events, area newspaper, and recreation. The community's high school students and their families regularly interact at sports events throughout the school year. Combined, these demonstrate area residents have common interests and/or interact. The application contained sufficient independent support to establish the proposed community is a well-defined community, as outlined in the *Chartering and Field of Membership Manual* (IRPS 03-1), Chapter 2, Section V.A.2.

#### 3. BUSINESS AND MARKETING PLAN

ABNB FCU features a comprehensive package of favorably priced products and services, as shown in the following table:

Accounts	Loans	Services Services
<ul> <li>Regular savings</li> </ul>	Automobiles/Recreational	Direct Deposit
<ul><li>Christmas / Vacation</li></ul>	Personal/Signature/Vacation	Money Orders /     Travelers Checks

In addition, the credit union offers a variety of electronic delivery services including home banking with bill payer, loans-by-phone, an audio response system, toll-free call center, on-line memberships, and e-statements.

#### **Facilities**

The credit union already serves numerous select groups throughout the proposed community and has considerable familiarity with the area. ABNB FCU currently operates eight full-service facilities in the cities of Norfolk, Virginia Beach, and Chesapeake, Virginia. The proposal contains a map identifying the locations of the existing offices.

(b)(4)			

ABNB FCU also participates in the Shared Services Program that allows members to perform transactions at participating facilities nationwide and has 15 owned ATMs. In addition, the credit union also offers the following low-cost or free financial service access through the following channels:

- Call Center Provides a wide array of account information via a toll free number 24 hours a day.
- Loan Center Apply for loans with a personal representative 24 hours a day.
- Web Site Offers numerous on-line services including new accounts and loan applications.
- CU@Home Convenient financial services via the internet including electronic statements and low cost bill payer services.
- 24/7 Automated Loan Services 24 hour automated internet loan application service provides immediate approval for qualified members.

The proposal indicates the current and proposed services are accessible to the vast majority of the proposed area's residents due to the extensive network of interstate highways. A map under Tab 3 illustrates the credit union's closest service facility to the two farthest edges is 59 miles from Southampton County and 20 miles from Isle of Wight County.

Although these are modest distances, due to the rural nature of the areas the majority of the persons work and shop in the major trade area where the credit union has existing and proposed branch offices. Thus, residents in the rural areas are accustomed to driving to the large cities in the proposed area to shop, attend cultural events, and work. Furthermore, the credit union has numerous electronic services as discussed above to assist in adequately serving the membership in the entire proposed

(b)(4)

#### Marketing

ABNB FCU's marketing plan is focused on creativity and ingenuity to the growing number of competitors both within and outside the traditional financial services industry, and to the ever-increasing expectations of the members and potential members. The credit union believes an active interface with ABNB membership, including "cross-selling" is an increasingly important approach to dealing with the changes in the availability of financial services.

### 6. REGIONAL RECOMMENDATION

ABNB FCU demonstrated it has the management expertise, financial strength, and strategic plans in place to succeed as a community credit union, and has met the community common bond requirements of the Chartering Manual, IRPS 03-1.

We recommend ABNB FCU's request for community conversion be approved.

# Community Profile Southeastern Virginia Community (SVC)

# Southeastern Virginia Community - A well-defined community

#### Community Overview -

The term, Southeastern Virginia Community (SVC), is used to describe a contiguous two county six city geographic area of Virginia that is a single well-defined community to the numerous individuals, families and businesses within its boundaries. The community includes Isle of Wight and Southampton Counties, as well as the Cities of Franklin, Chesapeake, Norfolk, Portsmouth, Suffolk, and Virginia Beach, Virginia. Combine our beach resorts, excellent fishing, history resources that span from the colonial era through our regional Military and technology presence and it's easy to envision us as a community.

Southeastern Public Service Authority - SPSA was formed in 1973 as the Southeastern Water Authority of Virginia to serve the cities of Chesapeake, Franklin, Norfolk, Portsmouth, Suffolk and Virginia Beach as well as Isle of Wight County and Southampton County. SPSA defines its service area as Southeastern Virginia. In 1976 it became the Southeastern Public Service Authority and its responsibility was expanded to include the implementation of a regional solid waste disposal system and a resource recovery operation featuring a refuse derived fuel plant and a power plant.

#### History -

Englishman Captain John Smith accomplished the first known exploration of the area we know now as the SVC in 1608. During this surveying expedition Captain Smith discovered one of the world's greatest natural harbors at the confluence of the James and Elizabeth Rivers – now known has Hampton Roads. Founded in 1752 by Colonel William Crawford, the earliest area settlement was named after Portsmouth, England, home to most of the original colonists. Given the exceptional quality of the harbor it is not surprising that the SVC is home to the nation's oldest working shipyard first built in 1767. During the Revolutionary War British General Cornwallis headquartered his army in Portsmouth before he made his fateful decision to move on the city of Yorktown. During the American Civil War the SVC was the development and building site of the Confederate ironclad Virginia, the first vessel of it's type, which engaged the Union ironclad Monitor in a famous battle at Hampton Roads in 1862. Given its location and strategic value, the SVC economy over its entire history has been tied to the sea.

Over the past 400 years the SVC area has grown into a center of trade, commerce, and industry including shipbuilding, military facilities, defense related manufacturing, and agriculture.

#### Community Boundaries -

The SVC is made up of a contiguous area including two counties and six independent cities located in the southeastern quadrant of Virginia. The SVC is bounded on the south by the North Carolina state line, and on the east by the Atlantic Ocean, on the north by the James River and Chesapeake Bay and on the west by Sussex and Surry Counties. The natural water boundaries, which define a larger portion of the SVC, are further evidence that the requested area is a separate well-defined community.

#### SVC Population and Economic Demographics -

# Community Facilities, Organizations, And Special Events -

The SVC offers numerous facilities, organizations, and special events that are available for the entire community to participate in and enjoy. Solid membership and strong participation in the many available activities is sound evidence of community cohesiveness and common interest.

#### The following is a partial list of facilities available to all SVC residents:

- 🔖 Ted Constant Convocation Center Norfolk
- 🔖 Virginia Marine Science Museum, Virginia Beach
- Virginia Zoo, Norfolk
- 🕏 Chrysler Museum of Art, Norfolk

The Norfolk Scope Coliseum promotes strong community interaction as a result of shared community facilities. Thousands of SVC residents utilize the facility year around for a wide range of events. The Scope is home to the Norfolk Admirals ice hockey and Nighthawks arena football clubs.

The National Maritime Center – Nauticus - is also home to the USS Wisconsin battleship, and located in Norfolk, VA.

**Numerous organizations in the SVC** enhance the quality of life and provide assistance to SVC residents, and are supported by individuals throughout the community. They are non-profit and are operated by community volunteers and contributions. A partial list of these organizations includes:

- Hampton Roads Economic Development Alliance (HREDA), SVC
- Hampton Roads Navy League, SVC
- Toys For Tots, SVC
- Catholic Charities of Hampton Roads, SVC
- Hampton Roads March of Dimes, SVC

- Hampton Roads Food Bank, SVC
- American Cancer Society, Norfolk
- Meals on Wheels, SVC
- SVC Children's Miracle Network. SVC
- Virginia State Reading Association, SVC
- Kiwanis Club, SVC

The HREDA is an example of strong community interaction promoting economic development within the SVC by encouraging business growth, technology development and education.

The Navy League of Hampton Roads grows in membership and events year after year. They serve both the military and civilian population with service awards and special events.

The following special events draw people from throughout the SVC community and contribute to a cohesive, close-knit community:

- 🦫 Pungo Strawberry Festival, Virginia Beach
- Chesapeake Jubilee
- Norfolk Harborfest
- Norfolk Nighthawks Football
- Street Cock Island Race, Portsmouth
- 🕏 Town Point Virginia Wine Festival, Norfolk

- Solde Town Holiday Music Festival, Portsmouth
- Norfolk Admirals Hockey
- Umoja Festival, Portsmouth
- Virginia Symphony Series, Norfolk

- 🔖 Virginia Arts Festival, Norfolk
- The NAS Oceana Air Show, Virginia Beach

It is particularly noteworthy that the Norfolk Harborfest is one of the biggest annual SVC events each year drawing thousands of residents together – promoting and demonstrating community interaction and common interest.

The annual Neptune Festival in conjunction with the NAS Oceana Air Show is widely supported by the SVC.

#### Major Trade Areas –

The SVC offers its residents a wide array of shopping opportunities. Residents from throughout the SVC travel to shop at many major department, retail and specialty stores including: Wal-Mart, Kmart, Target, Home Depot, Lowe's and Kohl's.

In addition, there are six major shopping malls in the SVC. The most prestigious, MacArthur Center Mall, conveniently located in Norfolk, near major highways, draws shoppers from throughout the SVC community by offering residents a wide array of over 150 national chain and local specialty retail shops, most of which are unavailable anywhere else in the SVC.

According to MacArthur Center Mall officials, the vast majority of mall patrons are from the SVC (see map).

Shopping by SVC residents is aided by the fact that the major SVC interstate highways (I-64, I-264, I-664) conveniently connect all SVC major metropolitan areas to the major shopping area.

#### Media -

Newspaper – The SVC is home to one major daily news publication with an SVC wide circulation of nearly 200,000 homes - *The Virginian-Pilot*. The website,

http://www.adinsite.com/pilotprofile.html breaks down the concentrated circulation to be found in Virginia Beach, Norfolk, Chesapeake, Portsmouth and Suffolk. Other areas served by this newspaper include: the city of Franklin and the counties of Isle of Wight and Southampton in Virginia.

This clearly demonstrates that the residents of the Southeastern Virginia Community rely on the same media for news, advertising, and local events.

Radio – There are five radio groups with seventeen stations that operate in the SVC area offering residents a wide variety of entertainment and community service information. The five radio groups are Entercom, Hampton Roads Group, Sinclair Communications, Clear Channel, and Saga Communications. These radio groups reach all of the SVC which clearly shows that the community listens to the same radio groups.

<u>Television</u> – The SVC is home to ten locally based TV stations and three local cable television options, with three local TV stations outstanding from the rest. The cable companies provide dedicated public access cable channels for a wide variety of local programming. The media habits of the SVC shows that 95.9% of the community watch TV.

<u>Magazine</u> - The Hampton Roads Monthly Magazine is the only monthly available to the area. This is an obvious "shared" magazine throughout SVC.

#### Transportation -

<u>Highways</u> – Interstates I-64/264/464/664, along with Routes 10, 13, 17, 32, 58, 60, 158, 168, 258 and 460, provide the primary road access to SVC residents, connecting all metropolitan centers within the SVC.

<u>Public Ground Transportation</u> – Hampton Roads Transit Authority (HRTA) provides low-cost public ground transportation throughout the SVC (Norfolk, Portsmouth, Virginia Beach, Chesapeake and Suffolk). HRTA routes reveal they serve most of the underserved areas within the requested community. HRTA statistics indicate that total ridership during fiscal year 2001 was nearly 16 million passengers. (See attached map of HRT Routes).

<u>Airport</u> – The Norfolk International Airport, a state-of-the-art aviation facility, is the SVC's only commercial airport, with daily passenger service provided by 19 major and regional air carriers to 22 major markets. According to airport statistics, nearly 3 million passengers utilized the airport in 2001.

#### Community Worship -

SVC community values regarding religion play an important part in the area's family-oriented lifestyle. Every major denomination is represented within the SVC community churches. This diversity and commitment to spiritual values provides a solid foundation for residents to interact and build upon.

#### Health Care -

SVC residents enjoy the benefit of outstanding local/regional health care facilities. The community is home to Eastern Virginia Medical School that works in partnership with hospitals, physicians and clinics throughout the region. The main campus includes Sentara Norfolk General Hospital and The Children's Hospital of the Kings Daughters.

Name	Location
Sentara Norfolk General Hospital	Norfolk
Maryview Hospital	Portsmouth
Sentara Virginia Beach General Hospital	Virginia Beach
Chesapeake General Hospital	Chesapeake
Sentara Leigh Hospital	Norfolk
Obici Hospital	Suffolk
Children's Hospital of the Kings Daughters	Norfolk
Depaul Medical Center	Norfolk
Naval Medical Center Portsmouth	Portsmouth

All of the facilities are conveniently located within a thirty-minute drive to the majority of SVC residents with numerous clinics and medical offices nearby, providing comprehensive health care access and services to SVC residents. The vast majority of individuals receiving health care services at the facilities are SVC residents.

#### Education -

The following four institutions of higher education, (based on enrollment) all located in the SVC area, attract students from throughout the SVC area by offering a wide range of academic and technical training programs.

Name	Enrollment
☐ Tidewater Community College	21,279
Old Dominion University	19,626
☐ Norfolk State University	6,839
Paul D. Camp Community College	2,521
1	2,521

According to school officials, the vast majority of students enrolled in these SVC institutions of higher education are SVC residents.

#### High School Activities –

Area activities organizations, teams and events play an important role in the lives of many SVC residents. At the high school level, area teams enjoy strong community support. Schools in the community are affiliated through the Virginia High School League and participate in various extracurricular activities within their respective regions and divisions locally and statewide.

Area high schools all offer SVC area students the opportunity to participate and compete in a wide range of sporting events such as baseball, basketball, cheer, football, golf and gymnastics. Scholastic activities such as scholastic bowl, creative writing, forensics, debate and theatre to name a few are also included. SVC high schools frequently play each other promoting interaction throughout the SVC. Regional and sectional playoffs are frequently held at SVC facilities. The Eastern Region is composed of the Beach District, Eastern District and the Southeastern District located within the SVC and also includes the Peninsula District as well. The following depicts the interaction between the Class AAA schools in the Eastern Region. Additional information is available at the Virginia High School League website <a href="https://www.vhsl.org">www.vhsl.org</a>

#### Professional Sports Teams -

At the professional level, area teams enjoy strong community support. The following professional sports organizations are located in the SVC and call it home:

- Norfolk Tides This class AAA baseball farm club of the National League's New York Mets, play April through September with 144 game schedule, 72 home and 72 road games. Harbor Park Stadium was named the "finest" Minor League Baseball facility in the United States by Baseball America
- ➤ Norfolk Nighthawks The Nighthawks are a professional indoor football team who are part of the Arena Football 2 League. The Nighthawks play April through August with 8 home game and 8 away game. They call the Norfolk Scope, in the City of Norfolk, home.
- ➤ Norfolk Admirals The Admirals are a professional hockey team who play in the American Hockey League and are affiliated with the NHL Chicago Blackhawks. The Norfolk Scope is home ice for the Admirals.
- ➤ Hampton Roads Mariners The Mariners are a professional soccer team who play in the DC United League and call the Sports Plex in Virginia Beach home.

Attendance information relating to the above listed SVC professional sports teams is contained in the SVC third party and supporting information section of this request.

#### Conclusion -

We believe the above narrative, along with the enclosed supporting information, provides overwhelming evidence that the SVC is a single, separate, geographically well-defined community where citizens interact on a frequent basis, as well as share common goals and interests.

SVC residents share common resources, including major medical and educational facilities, and government. The overwhelming majority of SVC residents work, shop, worship, volunteer or attend school within the boundaries of the SVC.

There is a long list of community-based facilities, organizations, and special events in the SVC, which offer residents an opportunity to interact with one another. These organizations are an integral part of the SVC community and represent a variety of interests within the SVC community.

Based on the documentation provided in this proposal, we believe ABNB has provided ample evidence that the SVC is a separate, well-defined, local community, whose residents interact on a regular basis and share common interests and goals as required by NCUA.

The third party documentation and supporting community information contained in the companion binder is provided to further support and validate the SVC community narrative.

# ABNB Background And Service Information

# Mission And Vision Statement

#### Mission Statement

To provide Quality, Innovative, Convenient financial services to every member, anytime, anywhere, while maintaining a sound financial condition.

(b)(4)		

#### History -

Chartered in 1960 ABNB was established to serve the financial needs of our original core membership - the civilian and military employees of the U.S. Naval Amphibious Base, Norfolk, Virginia. As is the case today, the need for well-priced, reasonable financial services and the credit union philosophy of "People Helping People" was the driving force behind the charter application.

Like so many other credit unions, the start up was small with a handful of members and a small amount in initial shares.

Over the years the credit union's field of membership has been expanded, with over 100 select employee groups and 39,000 members in our current membership base, and total assets in excess of \$281 million.

Despite all of the changes, growth, and expansions that ABNB has experienced over the past 40+ years our basic operating philosophy and commitment to our membership remains unchanged.

#### Senior Management And Volunteers -

The ABNB senior management team is a dedicated group of individuals with the flexibility to effectively respond to a changing environment. The credit union is prepared to take on additional membership in a well-controlled manner. ABNB also has a strong group of volunteers who proactively oversee the credit union and ensure that members' needs are met with the utmost of care. If the community conversion is granted, ABNB is committed to participating with community organizations that work to better the lives of all persons within the SVC.

# Community Involvement Activities

#### Community Involvement Activities -

Our involvement in many successful community activities/projects serves as reinforcement to the credit union philosophy and an acknowledgement that we at ABNB can and do make a difference. While the credit union started as a military based credit union we have found that we could not serve our members simply by supporting activities sponsored by the military. Over the years our support for military community activities has grown in recognition that our military members are also part of the biggest community they live in. Military spouses live in our local communities work in the civilian sector, attend local churches and their children attend public schools. They are part of the community and as such we have become a part of the community. We have found that many of our younger military members and their families suffer the same hardships as other underserved individuals in the community and require the same level and types of service. We have tailored our savings and loan programs to allow these individuals to borrow and save within their means. Our checking programs are designed to accommodate the needs of members of modest means, both military and civilian. Our financial and debt counseling programs provide a great service to those individuals willing to participate. It's interesting to note that all of the military installations and many of the developments surrounding these installations have been designated as CDFI underserved areas. Living out the credit union philosophy of "people helping people" has been and will continue to be our commitment to the community in which we operate.

Our staff, members and volunteers work very hard to make good things happen for the people in our community. This extends to people of all ages from our involvement with senior citizens at Marion Manor and other area senior care facilities to our activities with school children through our involvement with Kids Vote and other note worthy activities. By sharing, supporting, helping and encouraging we can accomplish more. Our involvement affords not only material things but also peace of mind to people in need. Just knowing that someone cares can often times make a difference, some involve the needs of our own members, many reach friends and neighbors in our community, while other projects promote education and awareness of the credit union movement in a broader sense. We look forward to extending this spirit of volunteerism into all of the SVC.

It is also noteworthy that ABNB received the "Distinguished Navy Service Award" in 1992, 1996, 1998 and 2000, in recognition for our service and support to the community.

The following pages list some examples of the volunteer programs we have been actively involved in over the past year.

# Conversion Request Summary

#### Conversion Request Summary -

The enclosed financial exhibits include business and marketing plans, financial reports and budgets and other applicable financial projections and related data. We believe that these exhibits, along with our previous performance over the past several years, clearly demonstrate that ABNB has the financial and managerial strength and commitment to effectively serve the entire SVC.

Our past financial performance is superior and our projections show that our numbers will be solid going forward. In addition, ABNB believes that our proven track record of solid community involvement on the part of the credit union and its employees and volunteers is noteworthy. ABNB already functions within the SVC as a community organization and looks forward to continuing our community involvement and extending our services to the entire SVC.

# I. NEWSPAPERS, MAGAZINES, OTHER PUBLICATIONS

Third-party documentation regarding the circulation estimates from the publisher of the local newspaper, The Virginian Pilot intent is to demonstrate that residents of **the SVC** rely on the same media publications for news, advertising, etc.

# **Third-Party Documentation**

<u>The Virginia Pilot</u> - The web site, <u>http://www.adinsite.com/pilotprofile.html</u> and printout - copy enclosed shows *The Virginian Pilot* daily circulation as 196,945.

In a fax copy enclosed, dated March 3, 2003 *The Virginian Pilot's* Advertising Representative, Monica Miccio, shows that the Sunday circulation of the Pilot grows to 231,994, with the local supplements as follows: Virginia Beach Beacon: daily 81,266, Sunday 100,883; Chesapeake Clipper: daily 38,240, Sunday 43,896; Portsmouth Living/Currents: daily 27,256, Sunday 29,109; Suffolk Sun: daily 19,179, Sunday 22,034; Norfolk Compass: daily 41,247.

# These figures show it is clearly demonstrated that residents of SVC rely on the same media publications for news, advertising, etc.

The Hampton Roads Monthly Magazine - This is the only monthly magazine to address the events, opinions and advertising in the SVC. The magazine has grown from 20,000 to 31,000 in a short period of time according to Paul Brannock (paul@vgnet.com), advertising executive at The Hampton Roads Monthly. According to Paul, "26% of the subscribers are found in the peninsula with 74% on the southside".

# This clearly shows that SVC shares the same magazine media.

<u>Television</u> - There are seventeen stations that operate in the SVC area however there are three major network TV stations outstanding from the rest. The media habits of the SVC reveals that 95.9% of the community watch TV, with the following channels capturing an audience of:

WAVY - NBC Channel 10 with 78,000 viewers;

WVEC - ABC Channel 13 with 71,000 viewers;

WTKR - CBS Channel 3 with 46,000 viewers.

The overwhelming number of viewers watch WAVY and WVEC as opposed to cable TV even though cable is found in approximately 37% of households. A report showing the other TV stations and cable standings are enclosed.

Radio - There are five radio groups in the SVC: Entercom, Hampton Roads Group, Sinclair Communications, Clear Channel, and Saga Communications. These radio groups reach all of the SVC area. This clearly shows that radio media is shared by all of the communities that make up SVC. Additional statistics are enclosed regarding demographics and radio stations.

Sources: \*Scarborough September, 2001. #ABC Audit for year ending December 2001.

# COMMISSIONS/TERMS OF PAYMENT

Herein The Virginian-Pilot is defined as the "Publisher."

The Retail Advertising Rates set forth herein do not apply to national advertisers, but rather to local advertisers located within The Virginian-Pilot circulation area. See below under "Retail Rate Policy" paragraph b for definition of "local" and "national" advertisers.

a. A courtesy discount of 15% may be offered to advertising agencies placing advertising at the open retail rate. No such discount will be offered when advertising is placed on the basis of a retail contract rate or when using group, municipal, state or other non-profit organization discounts. On pre-prints and Custom Cards, advertising agencies may receive a courtesy discount provided

that the applicable rates are grossed up 17.65%. Agencies may not combine accounts to arrive at a higher contract level. Before any courtesy discount will be extended, however, an advertising agency must accept joint and several responsibility with advertiser for payment of all advertising placed. Agencies acting only as placement agents will, with no acceptance of payment responsibility, not be eligible for any discount. Agencies must provide cameraready material for publication. Ad layouts that require the assistance of the Publisher to build will not be eligible for any agency discount. Extensions of courtesy discounts to an agency is discretionary and reserved solely unto the Publisher. Prevailing rate card takes precedent over agency insertion orders

- b. Notwithstanding anything contained herein, Publisher may, at any time, including with regard to advertising placed by contract, condition the placement of advertising on Publisher's collection of a cash-in-advance payment for the full amount of such advertising prior to scheduling any advertisement(s) for publication. Any advertiser or agency submitting advertising for placement on open account credit, which shall include advertising placed subject to a contract not payable in full, in advance, must be accompanied by a completed Virginian-Pilot credit application. Any credit request must be approved by the Publisher before any advertisement will be scheduled for publication. If credit is extended by Publisher, the subsequent placement of advertising by advertiser and/or an agency constitutes such advertiser and/or agency's agreement to Publisher's credit terms and conditions, which shall include, but not be limited to, the following: unless otherwise specified by Publisher, bills are generated on the first of each month for the previous month's charges and payment shall be due on or before the 15th day of the month referred to as "Billing Date" on the statement for such charges. Should legal action be required to collect any past-due balance, the advertiser and/or agency shall pay attorney's fees equal to thirty-three and one-third percent (33 1/3%) of the past-due balance, or actual attorney's fees as incurred by Publisher, whichever is greater, together with all costs of collection, including charges assessed to Publisher by any collection agency. Interest shall accrue on any past-due balance at the rate of eighteen percent (18%) per annum, until paid.
- c. There shall be added to any charges, amounts equal to any taxes, however designated, levied or based on such charges or on the publication of advertisements, including state and local privilege, or excise taxes based on gross revenue, and any taxes or amount in lieu thereof paid or payable by Publisher in respect of foregoing, exclusive however, of any taxes based on net
- d. Each insertion order is not considered accepted by the Publisher until approval is given for that insertion order by the Publisher's credit office. No advertisement shall be considered accepted by Publisher until published. Any advertisement is subject upon submission to all applicable Contract & Copy Regulations.

# RETAIL RATE POLICY

- a. Local advertisers are defined as a retail business, organization or association, or qualified retail division of another business or a bona fide voluntary chain, and therefore qualifies for retail advertising rates. Retail advertising rates also apply to advertising of public consumer services, charitable organizations, established community welfare services and civic programs. Advertising must be direct to consumer for one or more stores situated in The Virginian-Pilot circulation area, having the same name or identification, and offering similar service under a single ownership or control.
- b. National advertisers are defined as firms advertising as wholesalers, distributors or manufacturers, and/or advertising listing two or more nonassociated dealers or outlets, qualify only for national advertising rates, as does display copy for branded gasolines, mass transportation, public utilities and other classifications not clearly identified with regular retail channels.
- c. Rates may vary due to rounding after application of discounts.
- d. In the event the advertiser fails to fulfill the terms of the contract, all advertising over the term of the contract will be re-rated. For this period, the advertiser will receive a single charge for the difference between the invoiced amount and the actual revenue investment level fulfilled.

Madeline Busch Hampton Roads Monthly follow up

Madeline, thanks again for taking the time to review Hampton Roads Monthly magazine. As we discussed this is an excellent media to make a great impression with ABNB and our readers.

A key point is our readers take their time reading our magazine which means your ad is thoroughly read and typically the magazine stays around for approx. 4.4 months. This is a great opportunity to market all your southside locations and get the word out about the different investment and loan opportunities available at ABNB.

I wanted to follow up with a precise breakdown of our southside and peininsula circulation. Currently 26% of our Virginia subscriptions goes towards Peneinsula residences. This leaves between 70-74% going to the southside accounting for a minor few that go to Richmond, N. VA, or Charlottesville markets. We are also currently in the middle of a trial subscription drive where ticket holders of the Va Arts Festival receive 3 comp issues then have an opportunity to subscribe. This shouldn't effect the percentage breakdown however I did want to bring it to your attention.

Proposed ad schedules:

1/2 page May-April 2004 \$1,610. per month

Please note these rates do include complete production whereas a 15% discount is honored for provided advertisements. We also have other rates and frequency schedules available, however this is what I would recommend.

Thanks again Madeline for considering Hampton Roads Monthly. I hope you're in a position to start with our May issue and the sooner I know your intentions the better positioning I will have available for placement. I'll make a note to follow up in a week. Please also feel free to contact me 422-8979.

# III. SHARED EDUCATIONAL FACILITIES

Third-party documentation regarding the colleges and universities located within the proposed community including student enrollment from the SVC. The intent is to demonstrate that residents of all six cities and two counties interact in the process of seeking a higher education. Included are pages of documentation taken from the websites of the educational facilities.

# **Third-Party Documentation**

There are two four-year and two two-year public higher educational facilities located in the Southeastern Virginia Community.

<u>Tidewater Community College</u> - Tidewater Community College has four campus locations and various regional campuses across SVC, offering numerous programs and degrees including certificates, with accreditation for transfer. Tidewater Community College is a high-quality education and career training institution that affords citizens of the SVC an opportunity for education at an affordable cost. Three pages from the Tidewater Community College web site are included.

Tidewater Community showed a total of 17,007 enrolled from local cities of Chesapeake, Norfolk, City of Virginia Beach, and Portsmouth. This figure was 42% of the enrolled students for the year of 2000, showing that a significant portion of the student population comes from the locality of SVC. The source was VCCS and a page from the website is included. Documentation is provided from the college website, providing further evidence of an integral and contiguous relationship of the cities.

Tidewater Community College furnished enrollment data for 2001 - 2002 (copy enclosed). This data shows that Fall 2001 enrollment on the individual campuses. There was no current data showing the percentage of students that are from the SVC. Given the previous percentages, we are assuming that the percentage has either stayed the same or has risen.

Chesapeake	7,199
Portsmouth	8,754
Norfolk	6,465
Virginia Beach	18,737
Total	41,155

For additional information visit the web site at www.tc.cc.va.us

# Old Dominion University

Old Dominion University with its main campus located in Norfolk, also operates three campus locations and various regional campuses across Virginia. The main campus

located in Norfolk is easily accessible to the SVC area. Two pages from Old Dominion University web site are included.

Old Dominion University registrar's office furnished enrollment for 2002-2003, the latest data available (copy enclosed). The total number of students for the current year is 20,105. This data shows the fall 2002 enrollment from the five immediate SVC cities were as follows:

Suffolk	422
Norfolk	2,450
Va. Beach	4,327
Chesapeake	1,991
Portsmouth	600
Total	9,790

The five SVC cities students numbered 9,790 and represented 48% of all students at Old Dominion University campus.

For additional information visit the web site at www.odu.edu

# Norfolk State University

Norfolk State University was founded in 1935. It is Virginia's largest public historically black university (HBCU) and the seventh largest HBCU in the nation is located in the City of Norfolk. Over 70% of the student population is from the state of Virginia and 50% of the enrollment of 6,839 are residents of the Southeastern Virginia Community.

For additional information visit the web site at www.nsu.edu

# Paul D. Camp Community College

Paul D. Camp Community College is a two-year institution of higher education that operates under the state-wide system of community colleges. The college has campuses in the cities of Franklin and Suffolk. The citizens of these cities as well as the citizens of Isle of Wight and Southampton counties have the convenience of a community college and the universities for continuing education in nearby SVC cities.

For additional information visit the web site at www.pc.cc.va.us

Enclosed are maps showing the main campus of Tidewater Community College as well as the other campuses within the SVC, furnished by the colleges website. The Old Dominion University campus, the Norfolk State University campus and the Paul D. Camp Community College campus is exhibited in maps found on the university websites. The maps indicate campus locations, the interstate and secondary highways that connect the six cities and two counties within the SVC and the ease in which all the residents can travel to the campuses.

The maps show that all campuses are conveniently located to students throughout the entire SVC area.

With citizens from the SVC representing 42% of the students at Tidewater Community College, 48% of the students of Old Dominion University, 50% of the students at Norfolk State University and virtually all of the students of Paul D. Camp Community College it is clearly demonstrated that residents of all five cities interact within the SVC in the process of seeking a higher education.

enrollment increased 12%. This level of growth occurred at each campus.

- Workforce training (defined as occupational/technical education) served 11,825 individual credit students (3% increase) and generated 4,217 FTES (4% increase). The largest workforce training disciplines were information systems technology, air conditioning/refrigeration, business, emergency medical technology, industrial technology, and nursing. Noncredit courses served 1,738 individual students, an 8% increase over last fall.
- Demographically, fall 2001 enrollment showed the most significant gains in full-time students (8%), females (7%), African-Americans (13%), and new students (10%). A significant increase was also noted in the 21 and under age group (10%) and the 22-24 year age group (13%).

iiiiln summary, the primary growth pockets include students enrolled in college transfer programs, full-time students, minorities, and students enrolling in college for the very first time. Additionally, active duty military enrollment increased dramatically, both in contract and non-contract programs. The college continues to grow in both directions of its mission core: college transfer and workforce development.

# Tidewater Community College is the

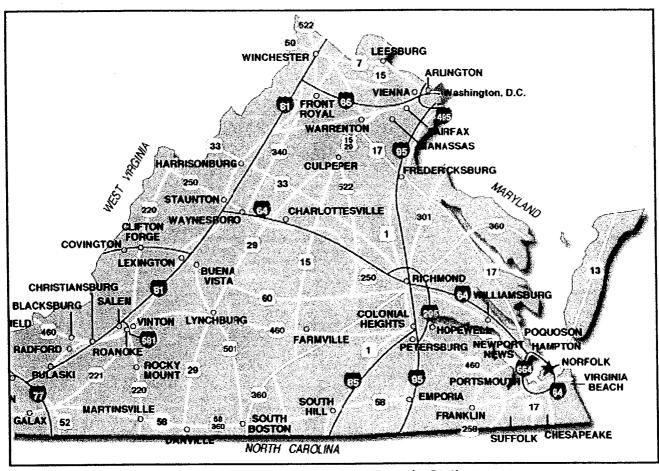

- 2nd largest of the 23 community colleges in the Commonwealth of Virginia,
- enrolls over 31,000 students annually
- 37th largest community college in the nation's 1,600 two-year college network
- serves the South Hampton Roads region with campuses in the cities of Chesapeake, Norfolk, Portsmouth and Virginia Beach, and with a regional Visual Arts Center in Olde Towne, Portsmouth, and the TCC Jeanne and George Roper Performing Arts Center in the theater district in downtown Norfolk
- 42 % of the region's residents who attended a college or university in Virginia were enrolled at TCC

Tidewater Community College will become a model of a strategic community college-namely, a vital academic resource, capable of directing its energies and shaping its programs to meet the changing needs of students, of business and industry, of the region, the Commonwealth, and the nation, and of the international community of which the college is part.

# **About Norfolk State University**

**Students** 

Norfolk State College was founded in 1935. The College, brought to life in the midst of the Great Depression, provided a setting in which the youth of the region could give expressions to their hopes and aspirations. At this founding, it was named the Norfolk Unit of Virginia Union University. In 1942, the College became the independent Norfolk Polytechnic College, and two years later an Act of the Virginia Legislature mandated that it become a part of Virginia State College.

The College was able to pursue an expanded mission with even greater emphasis in 1956 when another Act of the Legislature enabled the Institution to offer its first Bachelor's degree. The College was separated from Virginia State College and became fully independent in 1969. Subsequent legislative acts designated the institution as a University and authorized the granting of graduate degrees. In 1979, University status was attained.

Today, the University is proud to be one of the largest predominantly black institutions in the nation. Furthermore, it is committed to pursuing its vital role of serving the people of the Hampton Roads area.

# IV. FAIRS, FESTIVALS AND OTHER EVENTS

The intent of the third-party documentation of the fairs, festivals and other events within the community is to demonstrate that residents of SVC interact as one community.

# **Third-Party Documentation**

Citizens from the SVC participate in numerous fairs, festivals and other events within the community.

SVC area residents primarily depend upon the facilities located on Oceana Naval Air Station for Air Shows, open to the public. This event held each year draws between 150,000 and 175,000 with two thirds of the attendees living in the SVC. The remaining one third travel from as far away as Pennsylvania and New York. The enclosed email received from Richard Dodd, special events coordinator with Moral Welfare and Recreation, US Navy, is documentation of the specific numbers for this event.

The American Music Festival has 125,000 people attending each year with over half residents of SVC and the remainder from out of the area. This information was received from Mike Hilton, Beach Events Coordinator (757) 425-3311.

The Boardwalk Art Show – sponsored by the Contemporary Art Center of Virginia has a yearly show held on the boardwalk of Virginia Beach in the month of June. Attendance runs over 200,000 with over two thirds from the SVC area and the remainder from out of the area. Susan Fink with the Art Center shared this information with me.

Virginia Beach Amphitheatre attracts over 300,000 each year with concerts ranging from rock to country. Seventy five percent of the attendees come the from the SVC area with the balance from out of town. Tabatha Webster from Clear Channel Entertainment relayed this information.

The Navy League of Hampton Roads grows in membership and events each year. The sponsored events have over 43,000 people attending, virtually all from the SVC.

A more complete listing of events can be found in the summary also enclosed. The vast number of events described in the summary share the common bond of a "community" event, whether it is hosted in Virginia Beach, Norfolk, Suffolk, Chesapeake, Portsmouth or any other locations in the Southeastern Virginia Community. The enclosed emails from several event leaders will unconditionally satisfy the concept of "community event".

In spite of our best efforts, we could not locate a central repository for information concerning the various Fairs, Festivals and Other Events. Virginia Beach events are enclosed. However, based upon other materials enclosed it is very obvious that the citizens of the SVC participate in numerous fairs, festivals and other events, and clearly demonstrate that citizens of the SVC area interact socially.

RE: meeting....mud run

Madeline,

Here are some very basic numbers, when we do the air show, we start by selling box and general seating on line, then we sell the rest cash at the gate.

9 sets of bleachers that seat 250 each, in front of those we put 100 and call that general seating...total general seating per bleacher set is 350...in front of those chairs we put 4 blocks of box seats with 10 chairs per box, so total seats per bleacher area is 390 - 400 seats, and we use 9 sets of bleachers and there are three shows, so if everything sold out would sell 8100 seats...we expect we had about 150 - 175 k people thru the weekend....

one set of bleachers seats sold on line broke down roughly as follows:

, d beach....40 seats Europe 18 seats Japan 9 seats Harrisonburg 15 seats DC 7 seats Norfolk 25 seats Falls Church 5 seats Richmond 9 seats NC 30 seats

This is probably a very good start to do your numbers, remember military personnel see this stuff everyday..unless they have family from out of this is roughly an 85% civilian market. We have experienced Air Show Groupies from up state Penns and NY, and even some people that follow the air show circuit around the country. License places from virtually state can be found, and the outside the gate locals flock to where they not been allowed to go before....

Hope this helps...Ric

# V. SHOPPING

The intent of third party-documentation that evidences that residents of the entire community frequent the same malls, shopping centers, etc. for shopping is to demonstrate the existence of a major trade area where residents of all four counties and six cities interact while shopping.

# **Third-Party Documentation**

There are four major shopping malls in the SVC area.

The major malls are as follows:

MacArthur Center, Norfolk
Chesapeake Square, Chesapeake
Greenbrier Mall, Chesapeake
Lynnhaven Mall, Virginia Beach

500,000 square feet
809,000 square fee
809,000 square fee
not available

Pages from all four of the mall's website are enclosed. It is of particular interest that these four malls all boast their "largest mall", "only place", etc. and rightfully so due to the expansive number of major department stores located in these malls. In fact, all four malls also indicate their service to the Hampton Roads or East Coast areas. The other three cities and two counties in the SVC do not have malls that would be of a benefit to the mall shopper, but truly the above four malls are a "skips throw" away.

While the other cities and counties have shopping areas, they lack the major department stores that are popular throughout the country. Tourism in the counties of Isle of Wight and Southampton bring together the residents through the specialty stores associated with the history of that county.

SVC residents frequently shop at each of the four malls as confirmed by conversations with representatives of each mall. The four malls are close to each other via interstate highways and have various combinations of major anchor stores and smaller specialty shops. This clearly demonstrates the existence of a central trade area where residents of SVC interact while shopping.

## MacArthur Center Regional Shopping Center Norfolk, Virginia

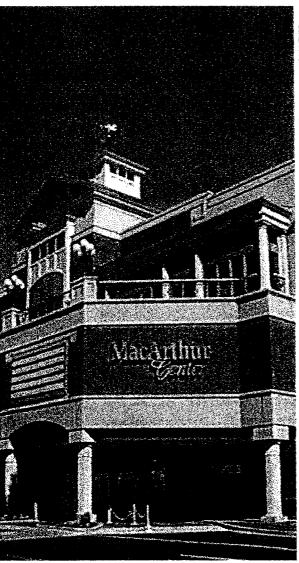

Size: 1.1 Million square feet (4,000 Parking Spaces)

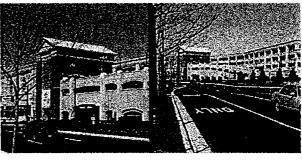

Cost: \$100,000,000

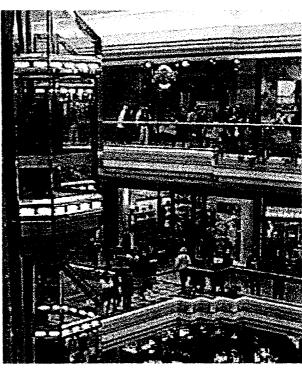

Completion Date: Spring 1999

Under the auspices of the Taubman Company and in association with Brown McDaniel Bhandari, Inc. of San Francisco, Hobbs + Biack Architects has completed work on the MacArthur Center in Norfolk Virginia. Located in the heart of the city, this 1.1 million square foot structure is adjacent to the memorial to General Douglas MacArthur. The center is anchored by Nordstrom and Dillard's department stores, with space for a third major anchor tenant. There are 400,000 square feet of mall tenant shops and 100,000 square feet of food and entertainment offerings. In addition to the new mall, two 5 level parking decks have been provided accommodating 4,000 cars.

Hobbs + Black worked closely with the corporate architects for the anchor stores, to plan and schedule the construction of their new stores. In addition, Hobbs + Black coordinated the activities of the subconsultants and specialty consultants working on the project.

A Simon Mall is the perfect location for your retail business. With 40 years of success in the shopping center industry, Simon is a compelling partner for entrepreneurs and established businesses who are interested in shopping mall locations.

It makes sense to lease space at Chesapeake Square. Here are a few of the reasons why:

- Chesapeake Square's roster of successful specialty tenants includes American Eagle Outfitters, The Disney Store, Gymboree, Victoria's Secret, Bath & Body Works, B. Moss Clothing Company and a variety of specialty food retailers.
- Chesapeake Square is the only mall in the area with 5 anchor stores - dual Dillard's locations, JCPenney, Sears and a brand-new 95,000-square-foot Hecht's.

Simon offers both permanent and short-term leasing opportunities. Our Specialty Leasing Program is the ideal place in which to grow your business. In fact, many successful retailers began their businesses by leasing space on a short-term basis. And it's easy to get started. Simply contact one of our leasing specialists listed below. # VII. AIRPORT

The intent of third-party documentation of a single commercial airport is to show that residents of Norfolk, Virginia Beach, Chesapeake, Portsmouth and Suffolk, interact by utilizing the same airport. Residents of Franklin, Southampton and Isle of Wight have the Norfolk airport as their closest major commercial airport. Included is information from the website <a href="https://www.norfolkairport.com">www.norfolkairport.com</a>.

## Third-party documentation

The Norfolk International Airport primarily serves the SVC, and surrounding communities. The next closest major commercial aviation facility is located in Richmond, Virginia, which is approximately 90 miles away. Information furnished by Norfolk International Airport, states that Virginia-origin passengers with a zip code in SVC, represents 40% of travelers through the airport. The remaining 60% represent other areas of Virginia and other states that do not have an international airport close to them. In 2001, 2,963,223 passengers were handled through the airport; 1,185,290 of arriving and departing passengers were residents of the SVC.

Six airlines currently serve Norfolk International Airport:

American

Continental

Delta

Northwest

Southwest

**US Airways** 

Additionally Norfolk International Airport has five commuter airlines. The Norfolk International web site (two pages enclosed) showed that slightly more than three million passengers enplaned or deplaned by 2002 (most recent available data available). The NIA website, and a 1994 survey provided by area businesses, indicated the availability of the airport for dependable, convenient air transportation, in some way supports approximately 35,000 non-aviation-related jobs in the market area, accounting for an estimated payroll of over \$835 million. \$2.1 billion in annual expenditures flow into the Hampton Roads economy via local business operations using the airport. A map is enclosed that shows the Norfolk International Airport is conveniently located via interstate highways to citizens from the SVC area, and are most closely accessible to the five cities that comprise the SVC.

With SVC citizens representing over 40% of all passengers using the Norfolk International Airport, it clearly shows that the residents of all of the SVC interact by utilizing the same airport.

# About the Norfolk Tides and ESPN Radio 1310...

- The Norfolk Tides are the Triple-A Affiliate of the New York Mets.
- The Tides have averaged over 500,000 fans per season since Harbor Park opened in 1993 among the top-drawing teams in the country.
- Harbor Park was selected by Baseball America as the finest Minor League Baseball facility in the world!
- The Tides play a 144-game schedule (72 home, 72 road).
- The 2003 season runs from April 3 September 1.
- Should the Tides qualify for the International League playoffs, radio sponsors receive additional spots at no additional charge.
- Tides games are broadcast on ESPN 1310 (WGH) and are simulcast on WFOG 1050 AM to increase coverage area.
- The coverage area for these radio stations includes the entire Hampton Roads area (Norfolk, Virginia Beach, Chesapeake, Portsmouth, Suffolk, Newport News, Hampton, Poquoson and Williamsburg) and portions of the Eastern Shore of Virginia and Northeastern North Carolina.

# **About WGH-AM 1310**

WGH-AM 1310, now known as ESPN Radio 1310, began broadcasting in October of 1928. The station has been a mainstay in the area for over 70 years.

WGH means World's Greatest Harbor. The station was one of the first in the State and broadcast sporting events as far back as 50 years.

WGH-AM 1310 began "afternoon sportstalk", hosted by Tony Mercurio, on September 15, 1986. One of their first ideas was to make WGH-AM 1310 a sport's radio station. Therefore, they decided to start the first weeknight "sportstalk" show ever in the Commonwealth of Virginia. Some newspaper people said "afternoon sportstalk" would last one month. Well, "afternoon sportstalk" is now in its 16th year on WGH-AM.

WGH-AM 1310 became the first all-sports radio station in Virginia, on May 30, 1992. WGH-AM 1310 became part of the Sports Entertainment Network, in addition to carrying "afternoon sportstalk".

On, February 1, 1999, WGH-AM 1310 became the second ESPN Radio 1310 full-time affiliate in the country. Thus, WGH-AM 1310 became known as ESPN Radio 1310.

# XI. CIVIC CENTER OR COLISEUM

Third-party documentation evidencing that residents of the entire community interact socially at concerts, sporting events, cultural events, etc. at a specific facility or location.

# **Third-Party Documentation**

<u>The National Maritime Center – Nauticus – (also the home of USS Wisconsin)</u> receives over 325,000 yearly from the SVC and a balance of over 74,000 from other areas of the state and out of state. Verified by the Director of Marketing, Sheila Harrison of the Nauticus museum. Written documentation is also enclosed.

# The Norfolk Scope

The Norfolk Scope Coliseum promotes strong community interaction as a result of shared community facilities. It houses many sports events including the Hockey team Norfolk Admirals, and arena football team Nighthawks. The enclosed material will give you an idea of the facilities and how welcoming it is to the visitors.

<u>ODU – Ted Constant Convocation Center</u> - is brand new this year and has hosted everything from family (Sesame Street Show), to the NCAA Basket Ball Playoffs to rock concerts. This new center has been received into the area as the center for sports, music, chamber annual meeting etc. Over 300,000 people would visit this center this year and the Marketing Director, Michael Kenney, tells me that next year they will double the numbers.

<u>The Virginia Beach Pavilion</u> - is located near the beachfront of Virginia Beach and draws from all of the surrounding areas with shows and events such as a Boat Show, Craft Shows, Health Shows, Car Show etc.

<u>The Verizon Wireless Virginia Beach Amphitheatre</u> – concerts goers from SVC attend the many concerts during the summer season. They offer everything from rock to country and some in-between music.

## **Summary**

Whether it is a sports complex, a convocation center at a local university, a naval station, or a Maritime Center, SVC supports and gathers for special events, making the area a larger community.

With SVC residents representing over 95% of all attendees it is clear that the separate communities interact socially at concerts, sporting events, cultural events and other programs.

## Nortolk Overview

Friday, March

With its sparkling downtown waterfront, tall glimmering buildings and storied maritime Norfolk, Virginia stands today as the Mid Atlantic region's most dynamic and progress cultural center.

World-class museums, galleries, intimate performing arts halls and scores of other att dot the city's pedestrian-friendly downtown waterfront, while the white sandy beaches Chesapeake Bay and Atlantic Ocean lie just minutes away.

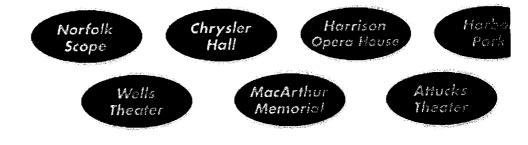

In fact, this old seaport in the heart of the Virginia Waterfront is experiencing a rebirth vibrant, the New York Times declared Norfolk a "cultural center of note," while Money Magazine dubbed it "The South's #1 big city to live in."

A city as rich in history as there are things to do, Norfolk enjoys a cost of living consid more generous than most cities, offering business, leisure, and convention traveler th value and entertainment that can be found in few other places.

Whatever you choose to do in The New Norfolk, it's easy to see that the old seaport's beating stronger than ever.

## Welcome to Verizon Wireless Virginia Beach Amphitheater!

Welcome to Verizon Wireless Virginia Beach Amphitheater, formerly known as GTE Virginia Beach Amphitheater. Verizon Wireless has 7,500 reserved seats located under the pavilion roof, each with an unobstructed view of the stage. These theater-style seats offer plenty of leg room for you to enjoy the show. Two giant video

screens in the reserved section bring you up close to the action on stage!

#### Festival Lawn Seating

12,500 guests will enjoy the show on the gradually sloped hill. We encourage you pick a spot, and enjoy the show under the stars. Three giant video screens and a state of the art CD quality sound system make every seat a great seat! This general admission section generally offers a significant savings over reserved seating. Also, for selected shows, one child 12 or under is admitted free on the festival lawn with each adult holding a festival lawn ticket.

#### **OVERVIEW**

The Contemporary Art Center of Virginia is a nonprofit, noncollecting institution founded in 1952 to foster awareness, exploration and understanding of the significant art of our time. Regularly changing exhibitions feature painting, sculpture, photography, glass, video and other visual media from internationally acclaimed artists as well as artists of national and regional renown.

By balancing its four primary activities-gallery exhibitions. studio art classes, educational outreach programs and outdoor art shows-the Contemporary Art Center of Virginia seeks to involve a diverse regional public in the rich and active language of contemporary visual art.

#### **EXHIBITIONS**

With a broad mission and numerous constituencies.

the Center presents an extensive schedule of changing exhibitions organized by the curator or on loan from other museums or private collectors. Recent exhibitions have ranged from Art of Glass, an extremely popular regional collaboration featuring the works of Dale Chihuly, to the video art of Nam June Paik and the humorous and playful sculpto-pictoramas of Red Grooms.

#### **EDUCATION**

Educational programming at the Contemporary Art Center of Virginia emphasizes outreach to a broad and diverse population. The creation of partnerships with local schools and programs that assist teachers in meeting state standards of learning requirements is a high priority. The Center's education department develops programs that focus on methods of learning, problem-solving, visual literacy and teacher training. Adults as well as children benefit through the popular studio art school, which offers the public over 100 courses in ceramics, painting, drawing, photography and other media throughout the year. The 268-seat Sue and Harry B. Price Auditorium is the

facility's venue available for integrating lectures and performing arts into the Center's programming.

#### **BOARDWALK ART SHOW**

Rated by **Sunshine Artist Magazine** as one of the top-20 outdoor fine art shows in the United States, the Center organizes the Boardwalk Art Show & Festival. Combined with the Neptune Festival Art & Craft Show, these two outstanding art shows draw well over 400,000 visitors annually.

## Overall Request Conclusion -

ABNB strongly believes that the long-term financial impact of this community conversion will be very positive for both the citizens of the SVC and the credit union. We are committed to accomplishing our goal of serving the entire community in a conservative and consistent manner - building upon our strong financial base and our commitment to excellent member service. We will continue to develop and refine services that will be available to all members through a variety of delivery channels. We believe that our planning and financial projections, along with our performance over the past several years confirms that we have the human and financial resources to build a credit union that will be able to effectively serve the SVC community now and well into the future. We look forward to this exciting challenge and opportunity.

34. Investment Growth (1) (1) Exam date ratios are annualized. (2) Prior year ratios are based on estimates. (3) This ratio relies on the maturity distribution of investments reported per 5300 instructions. Thus, the maturity distribution could be based on the repricing interval and not the actual maturity of the investment. The exam date ratio is calculated consistent with prior years. (4) For all years prior to 2000, net worth includes donated equity, which is not a regulatory component of net worth. (5) Exam Date ratio: Net Charge Offs is YTD Net Losses plus (Average Monthly Net Losses from the prior year, multiplied by the number of months needed to equal a 12 month period). Example: If the exam date is 3/31/2001, the net charge off ratio for the exam date is: (YTD Net Losses) + (Average Monthly Net Losses for the year 2000, multiplied by 9). This is necessary to calculate 12 months worth of charge-offs with the available examination data.

**RBNW Requirement:** 

Not Applicable

THE RISK BASED NET WORTH (RBNW) REQUIREMENT IS NOT APPLICABLE.

\*\*\*Important\*\*\*

Credit unions only have to compute their Net Worth Ratio as of quarter end. Therefore, a change in the Net Worth Category can only be effective at quarter end. The examination date Net Worth Ratio and Category are only used for trend and test of reasonableness purposes.

## NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Part 701

Organization and Operations of Federal Credit Unions

AGENCY: National Credit Union Administration (NCUA).

**ACTION:** Interim final rule with request for comments.

summary: The NCUA Board is amending its chartering and field of membership manual to make two changes to ease the burden on applicants for community charters, expansions or conversions. First, applicants need not submit documentation to establish a community area that is the same as one the NCUA has previously determined to be a well-defined local community, neighborhood or rural district. Second, the Board is deleting the category of common characteristics and background of residents from the examples of acceptable documentation because it has proven to generate documentation of limited relevance.

DATES: Effective Date: This rule is effective March 20, 2001.

Comment Date: Comments must be received on or before May 21, 2001.

ADDRESSES: Comments should be directed to Becky Baker, Secretary of the Board. Mail or hand deliver comments to: National Credit Union Administration, 1775 Duke Street, Alexandria, Virginia 22314—3428. Or, you may fax comments to (703) 518—6319, or e-mail comments to regcomments@ncua.gov. Please send comments by one method only.

FOR FURTHER INFORMATION CONTACT: J. Leonard Skiles, Chairman, Field of Membership Task Force, at (703) 518–6320 or Sheila A. Albin, Associate General Counsel, Operations, at (703) 518–6540.

#### SUPPLEMENTARY INFORMATION:

### Background

NCUA's chartering and field of membership policy is set out in Interpretive Ruling and Policy Statement 99–1, Chartering and Field of Membership Policy (IRPS 99–1), as amended by IRPS 00–01. The policy is incorporated by reference in NCUA's regulations at 12 CFR 701.1. It is also published as NCUA's Chartering and Field of Membership Manual (Chartering Manual), which is the document most interested parties use and to which references in the following discussion are made.

The Chartering Manual requires community charter applicants to establish that an area is a "well-defined local community, neighborhood, or rural district." Chartering Manual, Chapter 2, V.A.1. It provides that an applicant may submit a letter describing how the area meets the standards for interaction or common interest for certain geographic and population sizes, namely, a single political jurisdiction such as a county with 300,000 or fewer people, or multiple, contiguous political jurisdictions with 200,000 or fewer people. Applicants must submit maps and information about population and the political jurisdiction. Regional directors currently have delegated authority to approve charter applications or amendments of this size. NCUA Delegations of Authority, Chartering 3A and 3B.

For larger areas in terms of population and geographic size, the Chartering Manual provides for applicants to submit a narrative summary and documentation supporting the finding of interaction and common interests in the proposed community. The Chartering Manual provides examples of the type of documentation that an applicant may submit but does not require or specify particular documentation.

In 2000, the regional offices received 27 community expansions and 104 community conversion requests. Of these 131 requests, 15 required NCUA Board approval.

Presently, the preparation and processing of a community charter, expansion or conversion request that requires NCUA Board approval are extensive. Credit unions often take a year or more to prepare a community charter application and credit unions may also use outside consultants to assist them.

A significant part of any application requiring Board approval is the documentation supporting the finding that the requested area is a "welldefined local community, neighborhood, or rural district." NCUA's Chartering and Field of Membership Manual (Chartering Manual), Chapter 2, V.A.2 at p. 2-45. In this regard, applications contain detailed information to demonstrate the residents of the proposed area have common interests or interact sufficiently to meet the statutory "local" requirement, along with supporting documentation as suggested in the Chartering Manual. Often, this portion of an application runs hundreds of pages.

A practice has arisen in which applicants for an area that the Board has already approved as a community obtain copies of that portion of an earlier application addressing the community requirements and resubmit the identical documents as part of their own application. The NCUA has processed numerous requests for all or part of approved charter applications under the Freedom of Information Act.

The Chartering Manual provides examples of documentation that applicants may consider using to support the area as a community, neighborhood or rural district. One of these examples is: "Common characteristics and background of residents (for example, income, religious beliefs, primary ethnic groups, similarity of occupations, household types, primary age, group, etc.)." Id. at 2–46. This documentation has proven to be of limited relevance in determining whether the area meets the community requirements.

Although this category is only one of eight examples of the type of documentation that is acceptable, the Board is aware that applicants may feel compelled to provide documentation in all categories. Mere statistical data about religious beliefs, ethnicity, age or income may encourage questionable assumptions and, as a matter of public policy, the Board does not want to encourage the classification of credit union members on such bases. To the extent that meaningful similarities exist among residents, an applicant may address them under the last suggested example of documentation demonstrating that residents share common interests or interact.

#### The Amendments

The first amendment provides that applicants for an area that is the same as one the NCUA has previously determined to be a well-defined local community, neighborhood or rural area need not submit a summary or any documentation to meet that requirement. The Board believes this amendment provides a common sense approach for documentation requirements by eliminating redundant proof by subsequent applicants for the same exact geographic area that either it or regional directors have already addressed. Applicants need only identify in their applications the fact of the prior approval and their reliance on the summary and documentation already part of the agency's records. Nevertheless, applicants may be required to submit their own summary and documents if the agency has reason to believe that the documents on file from previous applications are no longer accurate or are insufficient.

The second amendment is the deletion of the example of documentation for community requirements for common characteristics and background of residents. As discussed above, this documentation has proven to be of little value and, therefore, is an unnecessary burden for applicants and an administrative waste of time for NCUA staff.

These amendments will help reduce the time involved in the community application process, reduce costs for credit unions seeking to serve a previously approved community, and reduce regional and Board staff time and preparation.

The Board wants to note that these amendments only apply to required documentation to support the proposed area as a community. They do not eliminate any of the remaining requirements necessary to process a community application, such as addressing safety and soundness concerns and the requirement for business and marketing plans.

In conjunction with promulgation of this rule, the Board has approved a delegation of authority to regional directors to approve applications for new community charters and charter amendments, including expansions of existing community charters and conversions of any type of federal charter to community charter, regardless of the number of residents, where the Board has previously determined that

the community requirements have been met for the same exact geographic area.

#### Interim Final Rule

The NCUA Board is issuing this amendment to its chartering regulation as an interim final rule because it is an interpretation of an existing regulation and merely addresses agency procedures for processing chartering applications. The Board believes the amendments further the public interest in removing unnecessary regulatory burden for the public and promotes the efficient use of agency resources and staff. Accordingly, for good cause, the Board finds that, pursuant to 5 U.S.C. 553(b)(3)(B), notice and public procedures are impracticable, unnecessary, and contrary to the public interest; and, pursuant to 5 U.S.C. 553(d)(3), the rule shall be effective immediately and without 30 days advance notice of publication. Although the rule is being issued as an interim final rule and is effective immediately, the NCUA Board encourages interested parties to submit comments.

## **Regulatory Procedures**

Regulatory Flexibility Act

The Regulatory Flexibility Act requires NCUA to prepare an analysis to describe any significant economic impact a regulation may have on a substantial number of small credit unions (primarily those under \$1 million in assets). The amendments will not have a significant economic impact on a substantial number of small credit unions and therefore, a regulatory flexibility analysis is not required.

### Paperwork Reduction Act

The NCUA Board has determined that this interim final rule does not increase, and will in fact reduce, paperwork requirements under the Paperwork Reduction Act and regulations of the Office of Management and Budget.

Small Business Regulatory Enforcement Fairness Act

The Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104–121) provides generally for congressional review of agency rules. A reporting requirement is triggered in instances where NCUA issues a final rule as defined by Section 551 of the Administrative Procedures Act. 5 U.S.C. 551. The rule has been submitted to the Office of Management and Budget for its determination of whether this is a major rule.

#### Executive Order 13132

Executive Order 13132 encourages independent regulatory agencies to

consider the impact of their regulatory actions on state and local interests. In adherence to fundamental federalism principles, NCUA, an independent regulatory agency as defined in 44 U.S.C. 3502(5), voluntarily complies with the executive order. This rule will apply to some state-chartered credit unions, but it will not have substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. NCUA has determined that this rule does not constitute a policy that has federalism implications for purposes of the executive order.

## **Agency Regulatory Goal**

NCUA's goal is clear, understandable regulations that impose a minimal regulatory burden. We request your comments on whether the proposed amendments are understandable and minimally intrusive if implemented as proposed.
